

School	What makes them special?
Minnie Gant Elementary School, Long Beach	Gant already sorts cafeteria waste; their program will focus on getting the 64% of students who bring lunch to school to pack trash free.
Towers Elementary School, Torrance	Batteries and e-waste are collected and sent to the S.A.F.E. collection center in San Pedro. Used crayons are also collected and sent to the National Crayon recycling program.
Bancroft Middle School, Long Beach	Bancroft is implementing a new environmental program each month, such as expanding the recycling efforts, adding student green teams, and different environmental awareness campaigns.
Cesar Chavez Middle School, Lynwood	The kitchen staff is very good at understanding what students like to eat at lunch and prepare meals with that in mind, leading to minimal amount of food waste at lunchtime.
Mountain View Elementary School, Claremont	Mountain View's Principal, Ms. Taylor, was a teacher at Oakmont Outdoor School last year, who competed in the 2013-2014 TFLC. This year she is leading the TFLC during her first year as Principal at Mountain View!
Will Rogers Middle School, Lawndale	The school recently introduced a water bottle refill station in order to encourage students to bring reusable bottles from home.
Sycamore Elementary School, Claremont	Sycamore parents are invited to have lunch with their students, so both parents and students are making an effort to pack more trash free lunches!
(Eugene) Field ES	Field Elementary has 6 green teams: Compost Crew, Garden Group, Trash Troop, Energy Experts, Pest Patrol and the Switch Squad.
Citizens of The World Charter	The PTA has an active Green Committee that coordinates all of the environmental programs at the school
Westside Neighborhood School	Westside Neighborhood School organizes a beach clean up each year for all school community members to participate in.
St. Michael's School k-8	Student Body President Ricardo, and Student Body Vice President Ana are the students leading the Green Team at St. Michael's
Montemalaga ES	The lunch area offers zero waste condiment dispensers, so all sauces are in large bottles. No single use packets here!
Westminster ES	Westminster has a 4 bin compost unit in the garden that students will be adding their lunchtime fruit and veggie scraps to. All students at the school get to visit the garden each week.
Saint Mark School k-8	8 students from St. Mark's student Green Team are a part of the Youth Corps!
Roosevelt ES	Each Tuesday, Roosevelt students are encouraged to bike or walk to school through the "Bike it, Walk it" program. The school also has a completely trash free salad bar.

Washington MS	Ms. Eisman's students volunteer in the neighborhood food pantry; they plan to collect whole fruits and sealed foods from lunch to donate to the pantry.
Oak Street ES	The 6th grade teacher leading the TFLC, Ms. Atutoa, worked with her class to create a green bulletin board to notify the campus community about all of the environmental programs at Oak Street!
Billy Mitchell ES	Billy Mitchell has a rain barrel water collection system set up near the classrooms and in the garden area.
Stephens MS	Lead Custodian, Ms. Hyde, collects bottles and cans and uses the money she redeems to purchase treats for students who pick up litter on campus.
Lincoln MS	There is a student club called "Lincoln Litter League" who clean up the litter around campus.
John Adams MS	The new classrooms at the school maximize the use of daylight to light the rooms and have solar chimneys to improve ventilation, as well as eliminating the need for a traditional HVAC system. The school also has solar panels in the parking lot!
EI Segundo MS	The school's Leadership Program students manage the classroom recycling program and empty all classroom recycling containers each week.
View Park MS	The school's office managers are a part of the adult Green Team and are instrumental in leading the TFLC at the school.
